DRAWitOUT

Draw It Out Veterinary Strength Liniment is a Revolutionary Product.

Try Both Formulas!

Draw It Out is designed to make sure your horse is able to compete at their best. Based around a comprehensive proprietary mineral blend and Epsom salts profile, both of our formulas are deep penetrating fast acting.

CONTAINS:
Water, Sodium, Chloride, Magnesium, Sulfate, Potassium, Trace Mineral Blend*

CONCENTRATE FORMULA

Our original concentrate formula can be mixed at any ratio, the stronger you mix, the faster it will work. This deep penetrating formula can be used as a soak, poultice or general body spray. To utilize as a leg wrap you can apply directly to the leg via spray or actually soak your no bows or polos in a mixed solution and wrap. Keep the wraps moist as long as they are applied. DIO can be left on for long periods of time without burning or blistering. This version is also great on abscesses. DiO can be used before, during and after events or training. It will help keep horses from stocking up and getting sore from extended standing or overexertion. Using DiO as a spray is also great for large area applications like shoulders, backs and hips. Can be used after events to alleviate issues already seen.

GEL FORMULA

The high potency gel formula of our horse liniment. This version is 125% of what the concentrate is at full strength. Odorless and colorless, it is the no mess alternative to many products. This formula stays where you put it and can be used under pads, boots, wraps and other therapeutic products.

NO CARRIERS - NO CHEMICALS - NO COLOR - NO ODOR - NO MESS

"Be strong, be brave, be fearless. You are never alone" – Joshua 1:9

THREE EXAMPLES OF WHEN TO USE
GASTRO-PLEX PASTE

1. 1-2 hours prior to competition.

You want to allow enough time for the paste to coat the stomach and soothe before you compete. If your horse is already anxious at the trailer, administer 1-2 hours prior. You may see improvement of overall demeanor at trailer and in the alley way with those horses that typically get anxious. If you experience a major response with the Gastro-Plex paste, this may indicate a more serious issue (Gastric upset/Ulcers). In this event, consult with your veterinarian to rule out any underlying issues and/or consider adding the Gastro-Plex daily-fed pellets in to the program.

2. Before a long haul.

Providing Gastro-Plex paste prior to a stressful trailer situation can help prevent stomach upset. While trailering, gastric juice/acid can splash around in the stomach causing irritation to the soft tissue which can be painful to your horse. It is also important to have hay in-front of your horse on the road as chewing stimulates saliva production, thus helping neutralize the abrasiveness of the gastric juice/acid.

3. While at events.

If your horse goes off feed and/or water at an event, provide 40cc am and pm. If you have experienced this in the past and know you will be hauling to an event where you will stall overnight, provide a dose upon arrival.

Gastro-Plex is not a cure for ulcers. It promotes gut health by delivering natural soothing ingredients as well as probiotics and prebiotics which are essential! Remember any time you give antibiotics to a horse you disrupt the natural flora in the stomach. It is always important to follow-up with a support product such as Gastro-Plex pellets which provides probiotics, prebiotics and herbals to help restore natural microbial balance as well as Levucell® Yeast, which has been clinically researched to support the hind gut and reduce the risk of colic.
