# BURNS SADDLES... FITS HORSES...

#### BURNS SADDLERY'S CHALLENGER BARREL SADDLE

is specifically designed and hand crafted with the highest quality materials to provide optimum performance for both horse and rider in the barrel arena.

Because of its design, the tree will sit comfortably and securely on your horse's back during your barrel run. The 3" horn is slightly tipped forward to be out of the way during the run but accessible when you need it. Deep leg cuts in the swells allow security for the rider while allowing the rider to stand easily. Forward set, free moving stirrup leathers give the rider great balance while still offering range of motion. The Burns challenger skirts set low on a horse's back for close contact and move independently allowing the horse to work under the saddle better. A dropped in skirt rigging allows for more stability and a close contact feel.

# TITS RIDERS...

#### Available in three seat options to match your riding style

Low Rise: For riders who want a flatter seat with their legs positioned under their hips making it easier to stand in the saddle.

Medium Rise: A perfect balance in rise, rolling the riders hips back and keeping the rider secure in the seat but allowing riders to quickly transition from the front of the swell to the seat pocket during their run.

High Rise: Keeps the rider secure in the pocket and their legs positioned further forward.

Tree fits available:

#10 Fit: Provides a narrower fit for a horse that is thinner through the barrel and has pronounced withers.

#20 Fit: Our most popular fit, and is a great match for most modern quarter horses. This tree has good flair on the front of the bars to allow great shoulder movement, with the back of the bars being flatter, fitting the athletic backed horses securely.

 $\#_3$ o Fit: Provides a wider and flatter fit for bigger barrel horses.

#40 Fit: Fits horses that are truly mutton withered and strong muscled from the point of the scapula through the back, no dips with a full strong back.

Custom: Have your horse custom fit by a Burns Saddlery fitting expert for a customized fit to match your horses back and your riding style.

 $\textbf{Seat Sizes available:} \ 12.5", 13", 13.5", 14", 14.5", 15", 15.5", 16"$

#### **CONTAINS:**

Water, Sodium, Chloride, Magnesium, Sulfate, Potassium, Trace Mineral Blend\*

#### **CONCENTRATE FORMULA**

Our original concentrate formula can be mixed at any ratio, the stronger you mix, the faster it will work. This deep penetrating formula can be used as a soak, poultice or general body spray. To utilize as a leg wrap you can apply directly to the leg via spray or actually soak your no bows or polos in a mixed solution and wrap. Keep the wraps moist as long as they are applied. DIO can be left on for long periods of time without burning or blistering. This version is also great on abscesses. DiO can be used before, during and after events or training. It will help keep horses from stocking up and getting sore from extended standing or overexertion. Using DiO as a spray is also great for large area applications like shoulders, backs and hips. Can be used after events to alleviate issues already seen.

Draw It Out Veterinary Strength Liniment is a Revolutionary Product.

## **Try Both Formulas!**

Draw It Out is designed to make sure your horse is able to compete at their best. Based around a comprehensive proprietary mineral blend and Epsom salts profile, both of our formulas are deep penetrating fast acting.

#### **GEL FORMULA**

The high potency gel formula of our horse liniment. This version is 125% of what the concentrate is at full strength. Odorless and colorless, it is the no mess alternative to many products. This formula stays where you put it and can be used under pads, boots, wraps and other therapeutic products.

# THREE EXAMPLES OF WHEN TO USE GASTRO-PLEX PASTE

You want to allow enough time for the paste to coat the stomach and soothe before you compete. If your horse is already anxious at the trailer, administer 1-2 hours prior. You may see improvement of overall demeanor at trailer and in the alley way with those horses that typically get anxious. If you experience a major response with the Gastro-Plex paste, this may indicate a more serious issue (Gastric upset/Ulcers). In this event, consult with your veterinarian to rule out any underlying issues and/or consider adding the Gastro-Plex daily-fed pellets in to the program.

#### 2. Before a long haul.

Providing Gastro-Plex paste prior to a stressful trailer situation can help prevent stomach upset. While trailering, gastric juice/acid can splash around in the stomach causing irritation to the soft tissue which can be painful to your horse. It is also important to have hay in-front of your horse on the road as chewing stimulates saliva production, thus helping neutralize the abrasiveness of the gastric juice/acid.

#### 3. While at events.

If your horse goes off feed and/or water at an event, provide 40cc am and pm. If you have experienced this in the past and know you will be hauling to an event where you will stall overnight, provide a dose upon arrival.

Gastro-Plex is not a cure for ulcers. It promotes gut health by delivering natural soothing ingredients as well as probiotics and prebiotics which are essential! Remember any time you give antibiotics to a horse you disrupt the natural flora in the stomach. It is always important to follow-up with a support product such as Gastro-Plex pellets which provides probiotics, prebiotics and herbals to help restore natural microbial balance as well as Levucell® Yeast, which has been clinically researched to support the hind gut and reduce the risk of colic.
